P.S. Find list of coins sent overleaf.

WALLFIELDS,
HERTFORD.

13. X. 1903.

Dear Mr. Chapman,

I am sending with this a parcel of coins in a small tin, sealed.

They are a few that I have looked out from my duplicates & are all that I can find connected with the U.S.

If they suit you, I will part with them for $100 (£20) for the lot, which they ought to be worth.

Should you have anything in English Colonials I shall be glad to see them.

There are some of

However early american
pieces I want.
These most the New
England ~~shilling~~ sixpence
& threepence.
Those in the Murdoch
sale I did not bid for,
as I had a strong idea
that they had been
manufactured.
I also want the
Higley Coppers should
you at anytime hear of

any being on offer.

I should also like to have a few priced catalogues of any recent sales with recording.

I have a good many Canadians, the duplicates of two very fair collections that came into my hands, which I can send you if you have a good market for them.

I haven't yet sent the Swedish daler plates to Schulman yet. What are they worth to you? They are all very fine. Hope you had a good passage home from Holland, Yours truly
